# HARINI CHERUKURI

---

## EXECUTIVE SUMMARY

---

- Pursued Masters in Computers from **Sathyabama University** and Pursuing MBA from **Symbiosis, Pune**.
- 2.2 years' experience in **SAP, ABAP, .NET (MCP Certified), Crystal Reports & BO** in **Automotive** and **Healthcare** Domains.

## WORK EXPERIENCE

---

- Worked as a **Software Engineer** with **SAP Labs., Bangalore** (Jul'08–Oct'08)
- Worked as **Programmer Analyst** with **SYNTEL Inc., Pune** (Sep'06–Jun'08)

## TECHNICAL SKILLS

---

- Programming Languages: **ABAP, .NET 2005 (MCP Certified)**
- Database: **SQL 2000, MS-Access 2003**
- Development Tools: **SAP, ABAP, Crystal Reports, Business Objects, Visual Studio 2003/05, Fx-Cop, Toad 7.5, AppBuilder System** (A screen designing tool specific to McKesson-Encore)
- Domain Knowledge: Automotive, Healthcare

## PROJECTS EXECUTED

---

- Name of Project: **Installed Base Maintenance and Support**
- Duration: Jul'08 – Till Date
- Technologies: **ABAP, SAP, ABAP**
- Database: **Open-SQL**
- Description:

IMS: Installed Base Maintenance and Support is a development unit for customer focused maintenance. It was established in order to improve the maintenance, upgrade and migration offerings for customers on mature releases. IMS is defined as single point of contact to Development for Primary Support and IMS.

- Responsibilities:
    - ✓ Deliver efficiently customer - specific and standard corrections.
      - ✓ Solve customer problems on CSN level Development Support
      - ✓ Manage quality of standard, customer-specific corrections and support de-escalations
-

- Name of Project: **Report Development Factory**
- Customer: TriZetto Inc.
- Duration: Oct'07 – May'08
- Technologies: **Crystal Reports, Business Objects**
- Description:

#### FACETS TRANSACTIONAL REPORTS

The project focused on the migration of Rubi reports to Crystal reports. Rubi reports were developed using the Rubi tool and MS-Access was used as a backend. The development process tools such as business objects were to be used on the crystal reports.

#### HPXR REPORTS

The project is developing dashboards, which are used for analysis purposes by payer industry. The reports are developed to be from scratch based on the requirement provided by client in the form of functional specifications.

- Responsibilities:
    - ✓ Report functionality analysis to be developed from functional specification.
    - ✓ Analyzing queries, joins and functionality of the existing Rubi reports.
    - ✓ Preparing technical specifications & Developing report mockups
    - ✓ Object creation to be used on the reports using Business Objects.
    - ✓ Developing a crystal report with same functionality as rubi report, using business objects.
    - ✓ Unit testing and defect fixing in reports.
- 

- Name of Project: **Security Management Tool**
- Customer: TriZetto Inc.
- Duration: Jun'07 – Jul'07
- Technologies: **VB.NET and Sybase**
- Description:

#### SECURITY MANAGEMENT TOOL

The Security Management Tool (SMT) interfaces with Facets™ 4.x using batch processes and a Sybase 12.5.3 database backend. SMT facilitates easier bulk Facets profile data entry and profile changes across multiple environments. The batch processes extract the required information from the SMT database and update the required Facets tables.

#### SECURITY MANAGEMENT TOOL

- Responsibilities:
    - ✓ Gathering and analyzing the application requirement
    - ✓ Preparing the HLD and LLD of the 3-Tier architecture application.
    - ✓ Analyzing the use cases and feature functionality.
    - ✓ Analyzing the data model of the feature and develop stored procedures according the functionality requirements.
    - ✓ Developing, unit testing and fixing of defects with in the feature.
-

- 
- Name of Project: **TriZetto Group Reporting**
  - Customer: TriZetto Inc.
  - Duration: Sep'07
  - Technologies: **Rubi reports and MS Access**
  - Description:

#### TRIZETTO GROUP REPORTS

This project is to define the changes required to two existing RUBI report and to define the data elements and formatting for one new report.

- Responsibilities:
  - ✓ Report functionality analysis to be developed from requirements document
  - ✓ Analyzing queries, joins and functionality of the new Rubi reports.
  - ✓ Develop the Rubi report according to the requirements
  - ✓ Unit testing and defect fixing in the Rubi report.

- 
- Name of Project: **Encore**
  - Customer: McKesson
  - Technologies: **.NET 2005**
  - Description:

#### ENCORE

The project is a next generation Information system for the Healthcare Enterprise. McKesson owns a proprietary framework called HAF (Horizon Architecture Framework) that is used for application development. HAF is based on MVC architecture on client (.NET based) & Service Oriented Architecture with O-R framework (Java based) on server side. The aim was to provide Healthcare Enterprises with integrated access, receivable, resource, clinical and ERP management solutions.

HAF: Horizon Architecture Framework eases the development of applications using Java and .NET. HAF is composed of several components that facilitate web-service-based application development and spans both the client and the server worlds and provides an effective and efficient way for application developers to perform transparent create, retrieve, update, or delete (CRUD) operations for manipulating data on the physical database.

DCF: Dynamic Client Framework (DCF) is a .NET-based framework that brings up MVC architecture for the development of GUI based applications. DCF allows creating screen flow models, navigation paths based on events & is easily plugged into Visual Studio.NET. It makes use of advanced tools provided in Visual Studio.NET like Add-ins, Enterprise Templates & Custom Tools etc.

- Responsibilities:
  - ✓ Understanding the use cases and feature functionality.
  - ✓ Unit testing and fixing of defects in the feature.
  - ✓ Checking in and out of code through Star Team (Source Controller)
  - ✓ Analyzing and managing defects using Mercury Quality Center.

---

#### **INDUSTRIAL TRAINING**

- Underwent an 'Outbound Training' conducted by SAP towards enhancing Team skills

---

#### **PROFESSIONAL SKILLS**

---

- Good Report writing & Proof reading skills.
- Good Presentation & Negotiation skills

## **EDUCATION**

---

### **M.tech Computer Science**

**SATHYABAMA UNIVERSITY**

Aggr: **72.6% (First Class)** (2010 - 2012)

(MBA Finance)

**SYMBIOSIS CENTRE FOR DISTANCE LEARNING (SCDL)**

(2010 - 2012)

### **B.tech Computer Science & Engineering**

**JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY (JNTU)**

(2002 – 2006)

Aggr: **69.7% (First Class)**

**Board of Intermediate Education (Std. 12<sup>th</sup>)**

(2000 – 2002)

**Vikas Junior College, Rajahmundry**

Aggr: **84.7% (Distinction)**

## **PERSONAL PROFILE**

---

➤ Date of Birth: Oct 15<sup>th</sup>, 1985

➤ Sex: Female

➤ Communication Address:

(Permanent address) 86-15-9, Tilak Road , Vadrevnagar, Rajahmundry – 533 103

(temporary) Flat no 404, Shefali Enclave, HSR layout, 7<sup>th</sup> sector, Bengaluru. - 570 036
